WHAT IS AN ASC?
Ambulatory Surgery Centers—known as ASCs—are modern health care facilities focused on providing same-day surgical care, including diagnostic and preventive procedures. ASCs have transformed the outpatient experience for millions of Americans by providing a more convenient alternative to hospital-based outpatient procedures—and done so with a strong track record of quality care and positive patient outcomes.

WHAT IS ASCA?
The Ambulatory Surgery Center Association (ASCA) is the national membership association that represents ambulatory surgery centers (ASCs) and provides advocacy and resources to assist ASCs in delivering high quality, cost-effective ambulatory surgery to all of the patients they serve.

ASCA represents ambulatory surgery centers throughout the country. The ASC industry continues to grow with 5,849 Medicare-certified ASC facilities and more than 17,940 ORs across the country. ASCA Affiliates are invited to take advantage of the diverse marketing, advertising, exhibit and sponsorship opportunities ASCA has to offer to stay connected with the ambulatory surgery industry, in front of ASCA’s members and ahead of the competition.
According to ASCA’s 2019 Member Survey, one of the top reasons for joining ASCA is for the educational resources and programs that help improve business operations and patient experience.
