About the One & Only Campaign

The goal of the One & Only Campaign is to improve safe injection practices across healthcare settings. The practices within an organization are highly influenced by its culture or are an expression of its culture. Thus, through education, outreach, and grassroots initiatives, the One & Only Campaign will seek to influence the culture of patient safety. The One & Only Campaign is an education and awareness campaign aimed at both healthcare providers and the public to increase proper adherence to safe injection practices to prevent disease transmission

from the misuse of needles, syringes, and medication vials in outpatient settings. While the campaign will be initially rolled out in targeted locations, the vision is to develop a concept that can be replicated nationwide. For more information, please visit: www.ONEandONLYcampaign.org.
