

ASCA^{Clinical} & Operational Benchmarking Survey

www.ascassociation.org/ASCABenchmarking

Measure Your Performance.

ASCA's online Clinical & Operational Benchmarking Survey provides valuable quality and performance data about your ASC that you can compare with national performance statistics on clinical outcomes, staffing indicators, billing performance and much more.

ASCA is the only national association committed to providing the resources and representation that all ASCs need to thrive in today's competitive healthcare marketplace.

Designed by ASC benchmarking experts, the survey features:

- dynamic filtering capabilities
- convenient 24/7 access to your data reports
- a streamlined, quick-to-complete survey design
- real-time data review that helps ensure the accuracy of the data you provide
- easy-to-read reports that allow for quick comparisons between your ASC and national and specialty trends

Only ASCs that subscribe to the survey *and* submit data reports before April 30, 2022, will be able to participate in all four quarters of the 2022 survey.
