Language Solutions for ASCs
Akorbi is a U.S.-based company that provides enterprise solutions to empower companies to achieve success in the global economy.

We help healthcare organizations and other companies connect with employees, vendors and customers in over 170 languages, in any modality, from any location. Our customizable, enterprise solutions include learning and translation/localization solutions, technical and multilingual staffing, interpretation services, multilingual contact centers, and video remote solutions.
Interpretation Solutions

Akorbi works exclusively with qualified and certified interpreters, and we are ready to meet your interpretation needs at a moment’s notice, anywhere in the world. We ensure the most qualified resource is matched to each and every interpretation request. Akorbi has the ability to customize interpretation solutions to your requirements using technology and our broad range of multilingual resources, including on-site, telephonic and video interpreting as well as our multilingual call center.

Our interpreters have extensive experience and substantial knowledge of the subject matter at hand, and they know there is no margin for error. You’ll be able to choose from the following solutions:

**On-Site Interpretation**

Akorbi’s highly-qualified interpreters are available on short notice to support your conferences, depositions, meetings, or any other event, anywhere in the world. We’ll match your needs with an interpreter who has extensive knowledge of your subject-matter, understands cultural preferences and can select the right words for a spoken translation instantly and without fail.

**Telephonic Interpretation**

Akorbi provides real-time telephone interpreter services in over 150 languages. Telephone interpreters are available 24/7. Just call our live-answer operators today, and we’ll have you connected with a credentialed phone interpreter in 60 seconds or less.

**Video Interpretation**

Get an interpreter anywhere in the world at any time. Remote sites or secure locations no longer present problems for translation services. Akorbi’s revolutionary video interpretation service increases speed-to-market and cost efficiency while allowing your business to reach its audience anytime and anywhere.

**Mobile Interpretation**

With mobile interpretation, you have access to an interpreter while you’re on-the-go. We’ll provide one-button access to live interpreters who are fluent in 150+ languages and are proficient in medical, legal, business, educational and government terminology – among many others.

**Industry Experience:**

- Healthcare
- Courtrooms
- Engineering
- Entertainment
- Finance and banking
- Hospitality and catering
- Insurance
- IT Helpdesk
- Law
- Manufacturing
- Medical
- Retail and wholesale
- Telecommunications
- Travel and tourism
WE HELP YOUR BUSINESS SPELL SUCCESS IN OVER 170 DIFFERENT LANGUAGES.

With Akorbi, you have access to a variety of translation and localization solutions to help you meet your global business needs. The goal of localization is to give the product/service the look and feel of having been created specifically for a target market, no matter their language, culture or location. We’ll work with you to choose the best solution, or combination of solutions, to best support your project and maximize your budget. You’ll be able to choose from the following solutions:

**ENHANCED MACHINE TRANSLATIONS (EMT)**
Provides fast and inexpensive translations using terminology that is specific to your organization.

**TRANSLATION, EDITING AND PROOFREADING (TEP)**
Provides an editor and project manager for final proofreading and quality assurance.

**TRANSLATION, EDITING, PROOFREADING AND PROJECT MANAGER PROOFREADING (TEPP)**
This process includes the TEP process plus a third linguistic for in-language proofreading. It ensures the highest possible translation quality.

**LOCALIZED SOLUTIONS**
Adapting content to specific locale and market (documents, website, graphics etc.) Akorbi offers localization of printed, digital and interactive materials, as well as multimedia, flash and web services.

**WITH AKORBI, YOU’LL GET:**

- Project management and reporting through Akorbi’s online portal.
- Standardized production process.
- Managed review process.
- Translation memory for all projects.
- Terminology management and glossaries.

Akorbi’s state-of-the-art and highly secure data center ensures compliance with HIPAA and PCI, as well as the safe electronic exchange of private and confidential information.
Our network of qualified and certified interpreters can support your interpretation needs anywhere in the world. We make language interpretation easy and affordable with our proprietary ADAPT platform that allows quick and easy access to our video, phone, on-site, and mobile services.

ADAPT also allows the creation of customizable market surveys and data collection tools which can help your business better understand the needs of your diverse client base.

This revolutionary technology makes it possible for LSPs, their clients, interpreters, and translators to connect to transact services and data instantly, in a powerful, secure, versatile environment. ADAPT includes everything from free machine-translation to human-translation, TEP, as well as video remote, telephonic, and onsite interpreting coordination, in addition to scheduling and accounting management tools.
