What is ASCA?
The Ambulatory Surgery Center Association (ASCA) is the national membership association that represents ambulatory surgery centers (ASCs) and provides advocacy and resources to assist ASCs in delivering high quality, cost-effective ambulatory surgery to all of the patients they serve.

What is an ASC?
Ambulatory Surgery Centers—known as ASCs—are modern health care facilities focused on providing same-day surgical care, including diagnostic and preventive procedures. ASCs have transformed the outpatient experience for millions of Americans by providing a more convenient alternative to hospital-based outpatient procedures—and done so with a strong track record of quality care and positive patient outcomes.
ASCA represents Ambulatory Surgery Centers throughout the country. The map displays the 5,636 Medicare-certified ASCs organized by state.

According to ASCA’s 2019 Member Survey, one of the top reasons for joining ASCA is for the educational resources and programs that help improve business operations and patient experience.

The ASC industry continues to grow with 5,636 Medicare-certified ASC facilities and more than 17,050 ORs across the country. ASCA Affiliates are invited to take advantage of the diverse marketing, advertising, exhibit and sponsorship opportunities the Ambulatory Surgery Center Association (ASCA) has to offer to stay connected with the ambulatory surgery industry, in front of ASCA’s members and ahead of the competition.

WHAT IS AN ASC?
Ambulatory surgery centers, or ASCs, are facilities where surgeries that do not require hospital admission are performed. Patients who choose to have surgery in an ASC arrive on the day of their procedure, undergo their surgery in a fully equipped operating room and recover under the care of highly skilled nurses, all without hospital admission. ASCs may perform surgeries in several specialties or dedicate their services to one specialty, such as eye care or sports medicine.
